

# APCC Meeting

September 30<sup>th</sup>

The first meeting of the APCC in the 2010-11 academic year focused on e-safety.

Over forty families were represented at the talk which took parents through the issues of remaining safe online and helping your child to recognize the dangers. This support matches the advice and guidance given to children in their lessons at school. Feedback is very positive and the requests for updates will be arranged.

We also began the development of the present "Rewards and Consequences" policy. Introduced by Mr. Evans it will be discussed at the next meeting.
